- Compact and lightweight
- Long lasting and low cost
- For moderate infestations
- Uses dry pet food for bait
- Easy to set and monitor

Rat Zapper Ultra

11.5"L x 4"W x 4.75"H

- Uses 4 - D cell batteries
- Advanced electronics
- Larger capacity trap
- For long term control
- Uses dry pet food for bait
- Easy to set and monitor

Rat Tale Indicator

Sold Separately

- Uses 2 - 3.3v batteries
- For both Rat Zappers
- Red 'eyes' blink when trap is activated
- 12 ft cord plugs into trap
- Monitor out of site traps

Never touch a dead mouse or rat again.

Clean method of control! No pastes, poisons or bloody traps.

When a rodent enters a **Rat Zapper** to get the supplied dry bait, the system senses its presence and delivers enough electrical energy to quickly and humanely kill the rodent. A flashing red light on top of the trap (or the optional Rat Tale) tells you when the Rat Zapper has done its job. You never have to touch the dead rodent; remove it by gently shaking it out of the trap. **See product packaging for application & baiting guidelines.**

The **Rat Tale Indicator** allows for quick monitoring of hidden, out-of-the-way Rat Zapper trap locations. 12 foot long cord plugs into either Rat Zapper model. Quick and easy monitoring of traps placed in attics, crawlspaces, drop-ceilings, cabinets, sheds, RV's and more. Sold separately.

Recommended Batteries (batteries not included):

The performance of Rat Zappers depends on battery quality, the number of rodents killed and how long the unit is left on. **See product packaging for additional battery information and restrictions.**

Rat Zapper Classic: 4-AA batteries - Energizer E2 Lithium or Duracell Ultra w/M3 technology

Rat Zapper Ultra: 4-D batteries - Energizer E2 Titanium or Duracell Ultra w/M3 technology

Rat Tale Remote: 2 - 3.3v Lithium batteries - no specific brand.

Note: ALWAYS read all product information and the product label before use!!
