

# Alligator Guard From Nixalite®

## Realistic Floating Alligator Heads Scare Away Fish-Eating Pests Like Herons, Egrets, Cormorants And Other Hungry Animals.

Made in the USA, the Large and Small **Alligator Guard** heads have a realistic profile and hand-painted finish that scares off a long list of fish-eating wildlife. Float them in fish ponds, hatcheries, lakes and water gardens to keep birds and animals from eating your fish. Both models have an eyebolt underneath so you can anchor them with a string and weight.

#Decoy FAHLG  
Large Gator Head

- Ultra realistic hand-painted alligator finish
- Made from durable dense urethane foam
- Alligator heads have 2 reflective red eyes
- The Large is 28" long, 9" wide and 5" high
- The Small is 22" long, 8" wide and 3" high
- Protects your fish from hungry predators
- A Large 'Kickboard float' version is available

Made in the USA

- #DECOY FAHLG - LG Gator Head
- #DECOY FAKBD - \*Kickboard Alligator
- \*does not have anchoring eyebolt

Made in the USA

#DECOY FAHSM - SM Gator Head

*Combine large and small heads to create a 'congregation' of alligators. If anchored with line and weight, use plenty of line to allow the heads to float freely. In more confined waters (koi ponds, pools) allow them to float unrestrained for life-like movement.*

**The Articulated Gator.** For smaller bodies of water there is the Articulated Gator (#Decoy FA). At just 34" long, this smaller replica is no less frightening to birds and small animals. The floating body looks real enough to startle pest birds and nuisance animals around pools, water gardens, fountains and more.

#Decoy FA - Alligator

- Ultra realistic hand-painted alligator finish
- Made from durable rigid poly-resin foam
- Floating articulated body has 3 parts
- Gator is 34" long, 6.5" wide and 4" high
- Use in pools, water gardens, fountains, etc

#DECOY FA: Alligator (articulated 3-part body)

*Add to pools, fountains, koi ponds and other water features to keep birds out and fish safe.*
