

Fly Away™ BDL-1 Laser

Powerful, low-cost, high-quality handheld laser
The Fly Away™ model BDL-1 laser offers all these features:

- 30mWatt output power
- Class 3B, green laser
- Large beam, effective range of up to 1 mile
- Rugged all aluminum construction
- Sealed external joints and on/off switch
- Lockable carrying case
- Lightweight and easy to hold
- Powered by 2 “D” cell batteries. Lithium and rechargeable batteries work
- Made in The USA with a one-year warranty

For lasers to work effectively, there must be a contrast between the laser and surrounding ambient light. The stronger the contrast, the more efficient the laser becomes, particularly when managing larger bird populations.
