

# Fly Away™ BDL-50G Laser

**More powerful, low-cost, high-quality handheld laser**  
**The Fly Away™ model BDL-50G laser offers all these features:**

- 50mWatt output power
- Class 3B, green laser
- Large beam, effective range of up to 2 miles
- Rugged all aluminum construction
- Sealed external joints and on/off switch
- Lockable carrying case
- Lightweight and easy to hold
- Powered by 2 "D" cell batteries. Lithium and rechargeable batteries work
- Made in The USA with a one-year warranty

For lasers to work effectively, there must be a contrast between the laser and surrounding ambient light. The stronger the contrast, the more efficient the laser becomes, particularly when managing larger bird populations.
