BIRD
CONTROL

More powerful, high-quality handheld laser

The Avian Dissuader BDL-532HP laser offers these features:

- 50mWatt output power
- Class 3B, green laser
- Better effectiveness in brighter light
- Large beam, effective range of up to 1 mile
- Rugged aluminum, stainless & brass construction
- Lightweight at 2 pounds
- Safety key lock and 3 second trigger delay
- Easy to hold and aim with pistol grip
- Powered by 1 – 9 Volt Battery
- Includes safety glasses, red dot site for aiming and a lockable, weatherproof case.
- Made in The USA with a one-year warranty

For lasers to work effectively, there must be a contrast between the laser and surrounding ambient light. The stronger the contrast, the more efficient the laser becomes, particularly when managing larger bird populations.
